### Why Choose Hospice Care?

Hospice is a concept of caring derived from medieval times, symbolizing a place where travelers, pilgrims and the sick, wounded or dying could find rest and comfort. The contemporary hospice offers a comprehensive program of care to patients and families facing a life limiting illness.

### Our Commitment to You

Continuum Care Hospice was founded upon the concept of providing the best care by the best staff. We do not take your care lightly, and promise to keep you and your family informed and comfortable. Each member of our staff is wholeheartedly committed to the Continuum Care Hospice Pledge.

### Why Choose Hospice Now?

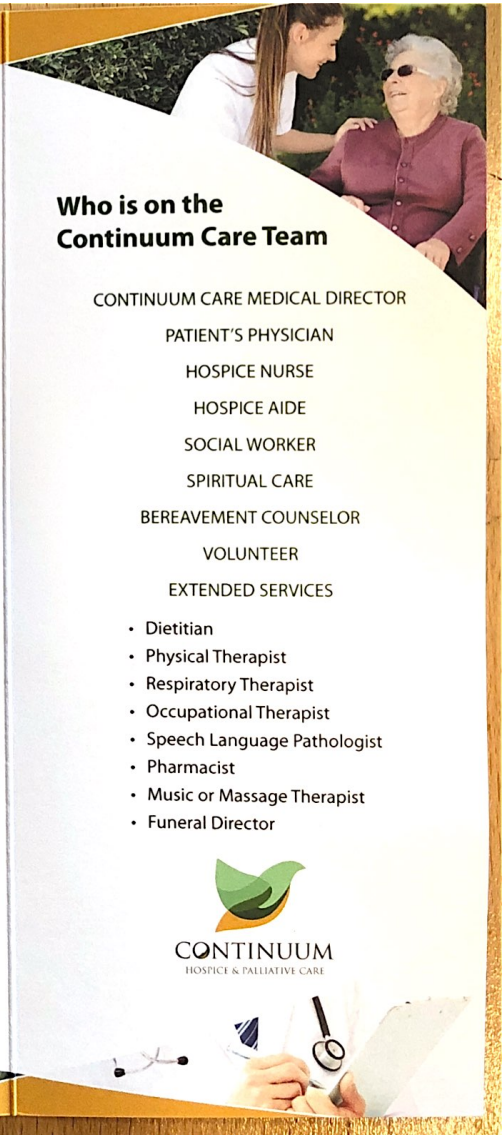

It is appropriate to discuss all of a patient's care options including Hospice. Many patients feel uncomfortable declining aggressive treatment to "beat" the disease. Continuum Care Hospice staff are highly sensitive to these concerns and are available to discuss. It is not about giving up hope, but rather living life comfortably.

### Is Hospice a Place?

No. Continuum Care Hospice provides patients with care wherever they call home. This can be in personal residences, nursing homes, assisted living facilities, hospital hospice units, and inpatient hospice centers.

### Do I Have to Pay for Hospice Care?

No. Hospice is a Medicare benefit with 100% coverage. This includes your hospice care team, medications related to your illness and any medical equipment you may need in the home. If Medicare is not your insurance, private insurances have a Hospice benefit. Continuum Care will be happy to discuss your insurance coverage should you have questions.
