Holistically
Redefined Care

At Whole Heart Elder Care we have a *holistic approach* to care.

Whole Heart Elder Care is a fully licensed, bonded, and insured in-home caregiving agency serving Jackson County. We are the only in-home care agency located in the beautiful city of Ashland, Oregon. Our office is centrally located in downtown Ashland to best support our community.

Our services help ensure the client's medical care teams, family, and home life are all working in concert to promote their holistic well-being. We assist a wide variety of clients—from independent and active retirees, to those in need of 24/7 attendance. Our care teams are ready to bridge the practical and personal realities of daily living to keep you, or your loved one, leading a fulfilling life.

When developing a care plan for our clients, we adopt a highly personalized approach. This includes not only care and lifestyle goals, but also a genuine connection with those providing support in the home. Our team members conduct their work with the utmost compassion, while always upholding respectful boundaries. With a Whole Heart, we will be there for you.

Our Services

At Whole Heart Elder Care, we are dedicated to supporting the full scope of your daily life. We understand that as your care needs change, our team must be ready to grow with you. The services we provide are designed to be tailored and scaled for each client over time.

Many of our services are of a more sensitive nature and our caregivers will always uphold your dignity, independence, and privacy. We are excited to become a part of your care team and help you live life to the fullest.
