

# Locations

Our sixteen-room locations are excellent for residents who do not want to live in a larger community setting, but require a higher level of care. The staff in our residential care home may assist with medication, help residents bathe, dress and perform many other daily tasks or activities of daily living.

We work to create an atmosphere where residents are treated with dignity and respect, allowing them to retain their individuality and independence. At Blue Haven, residents receive all the care they require at a fraction of what larger facilities charge.
