

We'll help you age wisely in the home you love.

From companionship a few days a week to 24/7 care, we have the right solution for you or your loved one.

In every community we serve, TheKey offers a full spectrum of in-home care for older adults. Whether you need a little help at home to live independently or you're living with an illness or age-related condition, we can help.

Whatever type of care you need, you'll get a customized Care Plan focused on joy, engagement, and meaningful activities.

First, we get to know you and your care needs, then we design a customized Care Plan just for you. You'll get the support you need—and always be informed and in control. And if your care needs change over time, it's easy to update your Care Plan.

Comprehensive In-Home Care

Home Care

From a few hours a day of help to 24/7 support, we'll design a Care Plan to meet your specific needs.
