

Do you need home health care?

- Are you managing a wound at home?
- Have you recently returned home after having surgery?
- Do you have a progressive, chronic illness?
- Are you in need of speech, physical, or occupational therapy because of an injury, surgery, or a sudden illness?
- Have you recently experienced a serious injury from a fall, or are you at risk of falling and causing serious injury?

Providence Home Health works with you and your doctor to provide a wide range of services that includes education and assessment to help you achieve optimal health care goals. The comprehensive care team may include one or more of the following:

- Nursing services (wound care, infusion, mental health,* and palliative care* specialists)
- Rehabilitation services (physical, occupational, and speech therapists)
- Nutritional experts*
- Home health aides
- After hours nursing telephone access and limited nursing visits (in some areas)

* In certain areas, mental health, palliative care, and nutritional therapy services may be limited by hours and/or insurance purposes or may not be available. Please check with your local Providence Home Health office for details.
