For 32+ years it has been the privilege of 1st CHOICE advisors to help elders needing supportive housing and personal care find the most suitable and appropriate options.

1st CHOICE has advisors working in the major metropolitan areas of Washington and Oregon. They live in the areas they serve, giving them a hands-on knowledge of the care options that exist in their area and the services that each housing and care provider can offer.

The compassionate and dedicated staff at 1st CHOICE provides services 7 days a week, and 365 days a year. An advisor will meet with seniors and families face-to-face, via phone, via virtual meetings online, to gather information about their particular situation and what they are hoping to find. 1st CHOICE works with the whole spectrum of senior housing & care providers so their advisors can bring suitable options to their clients and families.

And our services are **FREE**
