

## SINCE 1979

CDM Caregiving Services is the largest and longest-serving home care agency in Clark County. We are a nonprofit dedicated to helping individuals with long-term care needs live with dignity in the home of their choosing.

Through our In-Home Care Program and Adult Day Services Center, our passionate and highly-trained staff provide the highest quality of care at a value that is reasonable for individuals and their families. Our coordinated and holistic approach helps us meet clients wherever they are on life's journey, with kindness and compassion.

*We strongly believe that the way we treat the elderly and those with disabilities matters. It matters a lot.*

## CONNECTING COMMUNITIES

As a 501(c)3 nonprofit, our commitment to the community is strong, and our charitable Living with Dignity Program adds life-enriching activities to our menu of traditional services. To make this happen, we rely on our community partners to ensure everyone has access to the care they deserve.
