

"Your facility and staff was a blessing to me. After my surgery life did not look good- I could not walk and my head wasn't working right. Now I can work in the yard, in my trade as a journeyman, and I am driving. Everyone at Dallas Retirement Village played a very important part in my recovery, I am genuinely grateful to everyone."

Richard M.

Lovingly serving seniors 55 and older since 1947.

Rehabilitation and Long Term Care at
Dallas Retirement Village

Rehabilitation & Therapy Services

When recovering from illness, injury, surgery, or other challenges, your goal is to return to your highest level of functioning as quickly as possible. This is our goal as well. Our therapy and nursing teams have the knowledge, skills, and experience to guide you through successful rehabilitation and recovery.

With dedication to each person's fullest recovery, our whole-person approach and wellness programming focuses on optimizing and balancing physical, emotional, and social needs.

Customized rehabilitation—Individual needs are addressed with our full range of therapies, along with skilled nursing care when needed.

Rehabilitation services and amenities include:

- Individualized assessment and personal care plan, including professional physical, occupational, and/or speech therapies as well as wound care, IV therapy, and pain management
- Skilled nursing care when needed
- Private suites
- Nutritious meals and snacks catered to your diet
- Enjoy fresh linens and clean laundry every day, provided within the community for your convenience

Inpatient and outpatient rehabilitation programs are available.

Comfort and Well-being

Whether short-term recovery or long-term care is needed, Dallas Retirement Village provides considerate and compassionate professional healthcare, customized to meet each individual's needs. We recognize the value of friendship, companionship, and intellectual stimulation for overall well-being. Resident rooms and gathering spaces are designed to feel like private homes and foster a warm sense of neighborhood for both residents and their guests.

Long-Term Care

- Private and semi-private furnished rooms, residents are encouraged to bring their favorite personal items
- Nutritious meals and snacks served in an inviting dining room, or the resident's room if preferred
- Planned social functions, programs, and activities complement social and physical needs, as well as a variety of interests
- Daily housekeeping, personal laundry, and linen service— so you can feel at home without the inconvenience
- Personalized care plans outlining specific care and support for all short- and long-term residents, including those needing respite, hospice, and end-of-life care
- 24-hour staffing and licensed care
- Pain and wound care management
- Assistance with daily living activities

Our Health Center is Medicare/Medicaid-certified and accepts most major insurance plans.
